

ANSWERING HARDWARE NEEDS

Woven Metal Products (WMP) is a state-of-the-art fabrication facility in Alvin, Texas. With more than 45 years of experience, WMP manufactures and stocks complete replacement hardware for reactor and tray tower servicing. WMP provides consignment trailers and lockers for on-site support as well as parts to service a variety of process internal needs.

Specific products for hardware consignment include, but are not limited to:

- U-bolts
- Clamps
- Wedge and split keys
- Riser caps
- High-temperature gaskets
- Manway D-studs and D-clamps
- Universal tray ring clamps
- Seal plates
- Replacement floating valves
- Nuts, bolts and washers

WMP offers hardware in the most commonly used alloys and exotic materials as needed, including carbon steel 410, 304, 316, 321 and Monel. WMP's hardware division is available to meet all customer needs 24 hours a day, 7 days a week and 365 days per year. No matter what the requirements are, WMP understands the importance of timeliness and quality for all plant operations.

WMP serves local, domestic and international partners all with the same strategic purpose - reliable quality, partnership attitude and attention to detail. Because of these qualities, WMP has built a reputation as one of the best fabrication facilities in the world today.
