

BASKETS & STRAINERS

Woven Metal Products (WMP) is a state-of-the-art fabrication facility in Alvin, Texas. With more than five decades of experience, WMP manufactures baskets and strainers for various industry applications. With state-of-the-art equipment for producing these highly specialized products, customers can rest assured that no job is too big or too difficult for WMP to handle.

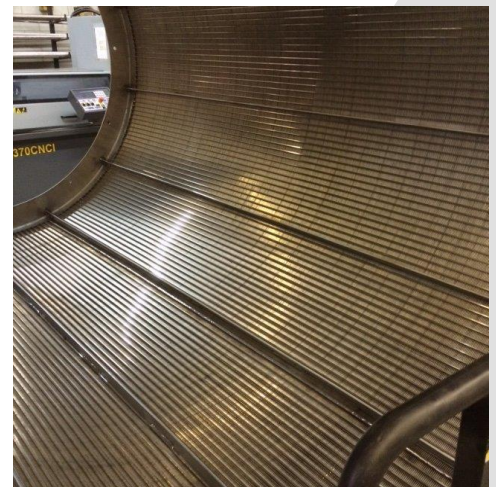

WMP offers a variety of solutions for filtration and separation needs in mesh, perforated, and profile / wedge wire options. Baskets and strainers separate, contain, collect and protect materials and equipment for a variety of applications. Because of the importance of these products, the design and quality manufacturing are critical for long-term success. WMP can work with its customers to provide improvements or replacement-in-kind products.

Profile/Wedge Wire benefits include:

- Continuous flow design increases open area for better collection
- Highly resistant to clogging
- Strong, with flexible design options
- Easy to clean and maintain
- Various types and sizes available

WMP offers all products with complete drawings, materials test reports (MTRs), assembly instructions, and any other necessary documentation. WMP is available to meet all customer needs 24 hours a day, seven days a week and 365 days per year. No matter what the requirements are, WMP understands the importance of timeliness and quality for all operations.

WMP serves local, domestic and international partners, building on its reputation as one of the best fabrication facilities in the world today.
