

SEPARATION & FILTRATION SOLUTIONS

Woven Metal Products (WMP) is a state-of-the-art fabrication facility in Alvin, Texas. With more than five decades of experience, WMP manufactures complete vapor-liquid and liquid-liquid separation elements and non-pressure retaining housing solutions for all tower and vessel applications. With the latest equipment for knitting, forming and punching, WMP delivers the highest quality products and solutions.

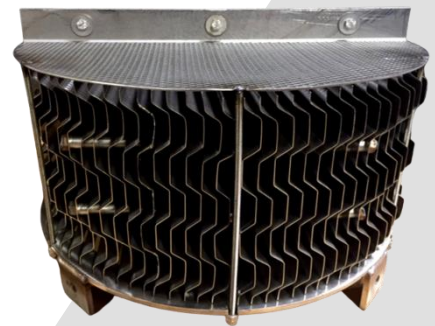

Specific to separation elements, WMP offers the following products:

- Wire mesh mist eliminators
- Chevron vanes
- Liquid coalescer devices
- Housings and supports
- Inlet devices

The WMP Advantage

- **Design for your needs:** WMP uses the latest software for product and engineering design. Drawings, materials test reports (MTRs), assembly instructions, and any other necessary documentation come standard with all orders.
- **In-stock materials:** We have some of the largest inventory in stock globally for certain products for the industries we serve. We offer most products in a wide variety of metal alloys to meet specific requirements.
- **Advanced Technology:** Our team uses the newest technologically advanced equipment, including robotic tools, to ensure superior product quality.
- **24/7 On-Demand:** WMP is available to meet all customer needs 24 hours a day, 7 days a week, 365 days per year. Our team understands the importance of timeliness and quality for all plant operations.
