

# REACTOR PRECISION: RADIAL-FLOW

Woven Metal Products (WMP) is known for our precise work and attention to detail where the tightest tolerances are critical. WMP has been servicing radial-flow reactors and supplying companies with needed internals for decades.

## Our products for radial-flow reactors include:

- \* Scallops
- \* Outer Baskets
- \* Center Pipes
- Regeneration Baskets
- Cover Decks
- Base Assemblies
- Expander Rings
- Inlets

*\*Available in profile wire, wire mesh and perforated metal, in a variety of thicknesses, slot sizes and wire combinations.*

We've also developed patented solutions for scallops and center pipes for process and mechanical optimization. Ask our team if these solutions or other mechanical and process improvements upgrades may be right for you.

Our engineering department can also help if you need drawings or designs from scratch, from used or old parts, or in conjunction with your own engineering department. Because we can help at any step along the way, our team is a great partner for any licensor, refinery, chemical plant, installation company, turnaround company, engineering group or others.

We understand when internals are needed, it could mean critical processes have stopped or a plant has been shut down. In these situations, our customers and partners rely on us for our expediency, quality and attention to detail. Get in touch with us to discuss your custom radial-flow internals needs.
